

## HOW TO READ YOUR NATIONAL EVALUATION SERIES™ FLEX SCORE REPORT

### OVERVIEW

This report provides your results for the National Evaluation Series™ FLEX test that you submitted on the submission date indicated.

### SCORE REPORTING

For the state to which your results are released, you will find the state-specific passing standard and your passing status. If you did not meet the passing standard, you are provided information describing the weaknesses in your Series FLEX submission.

If you are resubmitting for the Series FLEX, your score report includes your new score for the resubmission. For each submission, the report indicates whether you met the passing standard and information on your performance if you did not meet the standard. Please keep this score report for your records.

The state and institution(s) listed on your score report are the selections you made during test registration.

### ADDITIONAL INFORMATION

Cautions. This score report is for your records only. This document may not be used to gain certification. States must receive scores from the Evaluation Systems group of Pearson to fulfill credentialing requirements. This test was not designed to compare your performance to that of other candidates. Your test score is used to compare your knowledge and skills to those required by various states and institutions in compliance with teacher certification requirements.

Description of Your Submission Performance. Your Series FLEX submission is reviewed by two independent scorers. Scorers judge the overall effectiveness of each submission using a performance score scale and a set of performance characteristics. Refer to the Prepare section of your program website for more information.

Retaking the Test. Candidates who wish to retake Series FLEX must wait until they receive their scores before they are able to register for a retake of the same Series FLEX. In all cases, when Series FLEX is submitted as a retake, the entire submission is scored without reference to the previous submission.

Test Preparation Materials. Test preparation materials are available on your program website.
